With the grace of Nithyanandeshwara Paramashiva, Nithyanandeshwari Parashakti, ... we raised the flag ... after the Dwajaroohanam is done in Arunachaleshwara Temple. Today, Nithyanandeshwara Paramashiva and Nithyanandeshwari Parashakti and Sri Nithyananda Paramashivam are gracing in Sarvalankara in Amlana Mala. Ganapati, Subramanya, Nithyanandeshwara Paramashiva, Nithyanandeshwari Parashakti and Nithyanandeshwari Parashakti and Chandikeshwara and Nithyananda Paramashivam, all the deities are gracing in Sarvalankara and Amlana Mala in Adi Kailaasa Sarvajnapaetha and all the Sarvajnapaethas. Let's first receive their blessings and grace by offering our devotion and puja. Then enter into the satsang.

Devotional offering and Arti being performed

06:38

Today is such auspicious day and such auspicious energy. I tell you, ... I can define what is bliss. Bliss is waking up early morning and doing puja. I welcome all the Devas, Ganas, Munis, Rishis, Gandharvas, Yaksha, Kinara, Kimpuru, Bhuta, Preta, all ... all the divine beings, Paramashiva's companions. All Sri Mahants, Mahants, Kotharis, Thanedars, samajis, satsangis, everyone ... from all over the world, all over the Universe, with the grace of Paramashiva, Parashakti, Mahaganapati, Nandi, Subramanya, Mahakalabhairava, all the Gods and Goddesses of Kailaasa; I welcome all of you to celebrate, enjoy Nithyanandeshwara Brahmotsava. Such an auspicious energy, Paramashiva manifesting and blessing the whole Universe. Utsava will be happening in all our temples, ashrams, aadheenams, Sarvajnapaethas; mainly in Adi Kailaasa and all the temples, ashrams, aadheenams, Sarvajnapaethas. I welcome all of you. It's such auspicious energy.

08:37

I'll reveal the most important beautiful sacred secret - Paramashiva Jnana, Paramashiva Vijnana today from Kailaasa. Listen. Consciously you telling "Paramashivoham," "I am Paramashiva," consciously you declaring "you are Paramashiva" is much more powerful than all the four natural forces - gravity, electromagnetic force, soft nuclear force and strong force. Listen. Your conscious declaration so powerful! You can manipulate, play with all the four forces. I want all of you to meditate on this one truth. Your Paramashivoham, that declaration, ... should manifest in you in such powerful way, all four forces ... are lower than you. You are ... supreme, ultimate then these four forces - gravitational, electromagnetism, strong, sorry, weak nuclear force and strong force. Listen carefully. It is possible.

10:34

Only thing you need to understand, gravity works on you as laziness in the brain. Electromagnetic force works on you as self-doubt in you. Weak nuclear force works on you as self-hatred in you. Strong nuclear force works on you as self-denial in you. Decide you will declare the conscious truth, “Nithyananda Paramashivoham” to the level where your laziness is destroyed, your self-doubt, self-hatred, self-denial is destroyed, understand. You are Paramashiva not because that idea has a utility value. You are Paramashiva because that is a truth! Even if you face the worst fears of your life, even while you are facing that worst fears, you are Paramashiva! Listen. The greatest service you can do to me, any of you are feeling grateful to me for supporting, developing your life in anyway, this is the Gurudakshina I want. Declare “you are Paramashiva today.” More powerful than laziness, self-doubt, self-hatred, self-denial. Understand.

12:42

You don't need to conquer the external objects to be successful, if you conquer internal Instinct - you will be successful. Same way, to manifest Ishvara Shakti, you don't have to, need to conquer gravitational force, electromagnetic force, strong nuclear force, weak nuclear force. How they impact you? That impulses, impulses if you conquer, you can conquer all the four externally. The internal impact of gravity on your system is laziness. Internal impact of electromagnetic force on your system, is self-doubt. The weak nuclear forces internal impact on your system is self-hatred. The strong nuclear forces internal impact on your system is self-denial. Understand. You can actually see how clearly all these four are mapping to laziness and SDHD.

14:00

If you declare a strong conscious declaration “Nithyananda Paramashivoham,” “I am Paramashiva,” all four - laziness, self-doubt, self-hatred, self-denial will lose power over you. When these four loses power over you - gravitation, electromagnetic force, strong weak nuclear force and strong nuclear force, all the four loses power over you. I am not disrespecting those four forces. I am only making you understand you are more conscious. I want to remind again once more to all of you. I want to remind you, Hindu God - Paramashiva, will not get angry if you declare you are one with Him. He feels happy, “Aow! Now I have one more brain which is ready to manifest me.” He enjoys His multiple possibility manifestations. He does not ... behave like a political monopolized exclusivity force. No! He's not manipulate, He's manifestive. Many festive, manifestive.

15:56

Paramashiva Paramporul, Paramashiva is absolute Shakti. Paramashiva is absolute energy. Strongly declare in your being whether you have laziness or not, you have self-doubt, self-hatred, self-denial or not - you are Paramashiva because that is the truth!

17:43

I have so much to tell you guys today. I am going to have a long satsang. First I want to do this initiation. Because today is the most powerful the energy landing from Kailaasa to planet earth for the Brahmotsavam celebration, Dwajaroohanam Day. Let us receive Paramashiva's energy. These ten days, we will all decide to manifest Paramashiva ... and master these four forces. Let's manifest Ishvara Shakti. I really want ... let me first initiate and then I will continue the satsang because ... it's such intense energy flow. Please sit straight, close your eyes. Intensely chant Mahavakya, declare to yourself, "I am Paramashiva because that is a truth. Neither my laziness nor my self-doubt or the self-denial, self-hatred can touch my existential reality. I am Paramashiva, Nithyananda Paramashivoham. Om Nithyananda Paramashivoham." Sit with this powerful cognition - Om Nithyananda Paramashivoham is more powerful than any laziness, self-doubt, self-hatred, self-denial. Sit straight with this powerful cognition and chant Mahavakya - Om Nithyananda Paramashivoham.

Meditation starts with continuous Mahavakya chanting in the background

42:29

Om Nithyananda Paramashivoham. Yes, let's start the satsang. Listen. Today it's like a paradox. I have so much to tell and I am not able to tell. Because I have so much to tell, I don't know where to start. I'll try to break down all the things I want to tell you all as an instructions. Please drink as much water as you can from copper vessels. Because ... water kept in copper vessel can hold consciousness. Please use more ... copper tumblers or silver tumblers ... for drinking water and milk.

43:56

Understand, today I wanted to explain the alchemy of Ishvara Shakti. But I have a lot to share with you all ... this whole alchemy science. See all Gods, Goddesses are different permutation-combination of the biology, chemistry, physics of this Ishvara Shakti. Listen carefully. The various Ishvara Shaktis, the various Avaranas (आवरण, āvaraṇa), Ayudhas (अयुध, āyudha), Anga Devatas, Pasha Devatas, Salokya Muktas, Samipya Muktas, Sayujya Muktas and Sarupya Muktas - all of them are just different permutation-combination of ... Ishvara Shakti. Someone who has mastered ... manifesting Ishvara Shakti and ... declared His supremacy over gravitational force. Someone who has mastered the Ishvara Shakti and declared his supremacy over electromagnetic force.

46:06

Listen carefully. In temple, ... four important items - Vimana, Gopura, Garbhagriha (गर्भगृह, Garbhagr̥ha), Mula Devata (मूल देवता, Mūla Devatā). Listen to these four. All the Gods who mastered gravitational force will be carved in Vimana. Vimana represents ... mastering gravitational force. All the Gods mastered electromagnetic force, they will be carved in Gopura. Gopura is for sending a intense positive electromagnetic force to the whole city. Garbhagriha is ... intensely to radiate Ishvara Shakti, mastering weak nuclear force. Mula Devata is the Ishvara Shakti mastered strong nuclear force. Listen. Listen. Then you will understand Hindu temple is a spiritual science laboratory, to help you manifest Ishvara Shakti. Hindu temples are not just social centers, they are not just ordinary worship altars - they are literally spiritual power station. The station for charging you with Ishvara Shakti.

48:24

Listen. See the words “Vimana” means flight. Gopura means electromagnetic tower. Garbhagriha, the place for weak nuclear force. Mula Vighraha (मूल विग्रह, Mūla Vighraha), the place where that strong nuclear force emanates. Understand, how logically these words are matching with these forces. In Vimana, all the Gods flying with wings - Gandharva, all their statues will be there. But in Gopura they will not be there. In Gopura, only the Gods who spread intense vibrations will be there. You should see that deities. Gandharvas, all of them will be called only Vimana. Vimana is which is above the main Garbha Mandir. Gopura will be which is entrance. If you know little bit about Hindu temples, you will enjoy what I am talking. Every word will make sense for you.

>>>Tamil<<<

50:01

All these words are not small empty words. Going to temple is good and don't live in a village where there is no temple. Understand. Gopura, Vimana, Garbhagriha, Mula Devata. Ishvara Shakti, I'll try to logically connect and make you understand with the clear logic. If you connect with the Gods in Gopura, you will recharge the Ishvara Shakti to master electromagnetic force. That is why in front of Gopura you have to look up and meditate on each deity. If you connect with the Gods on the Vimana, you will manifest Ishvara Shakti to master gravitational force. If you connect Garbhagriha, you will master the Ishvara Shakti to master weak nuclear force. If you connect with Mula Devata, you will master the ... powers, to master strong nuclear force. I tell you, mark my words.

52:39

Temples are such a spiritual power centers. As long as temples are running properly, Tamil Nadu cannot be destroyed. It is extraordinary ... such large number of spiritual power stations - Ishvara Shaktitva, Ishvara Shakti Center. Oh God! Why do you think even though so many Tamilians have turned atheists against Hinduism, I chose Tamil Nadu to take birth? It is because of the Kshestra Mahimai. The power of the kshetra! Anywhere else one million devotees what energy they can create, in Tamil Nadu just one devotee can create because that transformers are so many multi ... manifesting transformers. So one guy chanting “Namah Shivaya” is enough will send zoom into the Cosmos a strong nuclear force - Ishvara Shakti. Because the power transformers, the Ishvara Shakti transformers.

54:34

>>>Tamil<<<

It's centered on the temple people for the temple's people the city. Just that science need to be revived, that's all. As of now temples are underused. Like iPhone is being used to only like a Nokia. iPhone is being used just for calling and talking like in Nokia button phone. Underused qualitatively. Understand. I am not saying temples are underused quantitatively. Large number of people are visiting. No doubt about that. Temples are underused qualitatively. Right context need to be told and qualitatively need to be used.

>>>Tamil<<<

59:27

Let me shift to English. Sorry. >>>Tamil<<< gear change to English. See, the temples are literally introductory place to Kailaasa. Whatever you see in the temples, Gods, Goddesses, everything, is all there in the Kailaasa. When you actually, if you actually lived in a place like a Tiruvannamalai, Madurai, Kanchipuram and all, if you go to Kailaasa you will not find any difference. Only one difference. There it all will be in gold colour, that's all. Shining jill, jill, jill, jiga, jiga. That's all. Nothing else. Here Ganesha, there it will be alive! That's all. Temples are replica of Kailaasa. Temples are model to center of Kailaasa. If you are blessed to be in any of these three cities, or even Chidambaram. No, I can go on be adding - Tiruchendur, Kanyakumari, Rameshwaram. Any city in

Tamil Nadu, any village in Tamil Nadu, you will see a main city center will be Shiva temple only. Go to Shiva temple every day.

>>>Tamil<<<

01:01:31

Understand, each God, Goddesses in that Gopurams and Vimanams are real! All the Gods in Gopurams manifest the Ishvara Shakti to master electromagnetic force. All the Gods in Vimana manifest the shakti to master gravitational force. All the Gods in Garbhagriha manifest the shakti to master weak nuclear force like a, Dakshinamurthy, Lingodbhava, Brahma, Durgai. These are the four Gods in Garbha Mandir. They will be there in the Garbha Mandir of Shiva. All Shiva temple Garbha Mandir, these four will be there. These four are the Masters making you manifest the weak nuclear force. Master the weak nuclear force. If you connect with Paramashiva - the Mula Devata, you will master Ishvara Shakti to master strong nuclear force.

>>>Tamil<<<

01:03:39

Every time you bow, bow down in front of deities, remember they are all real. When you bow down in front of Ganapati, remember Ganesha is real. He is in Kailaasa. When you remember, "Ganesha, I know you are real. Please bless me." He just manifest. Same way with every God, they are all real and they sent me ... to tell you this truth - they are all real and available. I want to tell you all, ... more and more life positive based decisions, makes you a channel for Gods and Goddesses to manifest. There is so much to tell. If I start, I am going to go non-stop like yesterday's night satsang. I don't know two hours or how many hours yesterday night satsang in Tamil. I think nine thirty to twelve. Two and a half hours almost. My whole mission's sara. The last ... from 1999 ... 1999 what I am doing. Almost twenty years.

01:06:18

This is unique way of counting. Actually it's called double layer thinking. In if you chant Karmapada in Veda, you will develop single layer logic. If you chant Ganapata, you will develop double layer logic. This comes only by Ganapata chanting. Mouth will be uttering one word and mind will be calculating another word. That is a ... is a layered logic. It's called Nayayika. Alright, it's already late. If I open up this subject which I am going to talk, it will take few hours, continuously I have to share. So the next satsangs I'll explain. In the evening maybe, I'll explain because I'll take two-three hours to explain.

So now with this, I bless you all. Let's all radiate with Integrity, Authenticity, Responsibility, Enriching, Causing, Living Shuddhadvaita Saivam, Paramashivoham, Om Nithyananda Paramashivoham, The Eternal Bliss, Nithyananda. Thank you. Be blissful. **01:07:52**
