Session 1

nithyānandeśvara paramashiva samārambhām
nithyānandeśvari parashakti madhyamām |
asmat āchārya paryantām vande guru paramparām ||

I welcome you all with my love and respects. I welcome everyone sitting with us all over the world through Nithyananda TV for this webinar in two-way video conferencing - Science of Manifesting. I welcome all of you with my love and respect.

Understand the Science of Manifesting is Science of Sanatana Hindu Dharma. Hinduism introduces this great science of using Cosmic truths, Cosmic powerful cognitions, manifesting Cosmic powers. Listen. This whole science...I tell you, this whole science is something extraordinary, unimaginable. Hinduism has contributed too many things to the world but this science is a too important science given to the world by Sanatana Hindu Dharma. You need to understand that. The first step of Science of Power Manifestation, Science of Manifesting anything you want. The first step in the Science of Manifesting is moving out of delusion, detoxification.

Listen carefully. Actually I am sitting and mapping the Cosmic Constitution into English language. One of my disciple who is helping me in the mapping, he asked me, "Swamiji...", because in the Constitution I said the fundamental right of the human beings is experiencing Oneness with the Universe, Paramashiva, Cosmos, Paramashiva. He said, "Swamiji, you are saying this is a fundamental right which we should ensure this in our Cosmic Constitution. But when I read the scriptures it always says it's most difficult, most difficult. Why?" Listen carefully. Most difficult because you are not ready or interested in getting out of the delusion. Otherwise, too easy if you just know how to get out of delusion and get integrated to reality.

Listen. I'll give you very simple example. You are born, the nurses and doctors who attend, your mother when she is delivering you, who is supporting her medically and in every possible way your arrival on the planet earth. Of course, we do give them some money. But, no way the money given can be equivalent to what we contributed. Listen carefully. Inside our cognition about life, humanity, society, human beings, we have this falsified cognition of what need to be done is done. You do not need to be grateful or you do not need to feel some favour is done to you, please understand. This is the first and foremost cognition you take life for granted and there starts the destruction. And, the power and ability to manifest stops happening in you.

Power of manifestation, Science of Manifestation: power of manifestations stays in your Sahasrara Chakra, crown center. The moment you start cognising the false equa, equal reactions or payments are done, the moment you stop cognising you have done enough to the life than what life has done - that cognition blocks the whole energy of manifesting. If you understand money given to them does not equate the service they provided, you needed to be ever grateful for them in your heart because even by slip, one minute if they slip and put the wrong clip on your body while you are arriving the planet earth or a small mistake - for your whole life you may be handicapped. Any small mistake they commit during your delivery, your whole life you maybe handicapped, understand. In every situation in the life, that delusion of you have done what need to be done - let me call it "delusion of debt paid."

Listen carefully. Money is manmade transaction system but they cannot be equated as the life's reality services provided. That can be a good substitute to show you are grateful to them but cannot be equating to the gratitude you need to maintained with the people and life. Please understand, I am talking something very silly. I am talking one of the Cosmic Principle. Money is just to show you are grateful to them but not equivalent to your gratitude. The money you pay to somebody for the service they provided cannot take away your gratitude you need to have towards them and the situation and the system. This is too important reality you need realise, understand. One of the worst thing done to humanity with the concept of currency - everything started getting calculated in the language of currency which is not letting you be grounded on the reality of life. Reality of life is so much is given and showered to you.

And, >>>no transmission for a long period <<< will not even be there. A man who starts cognising, functioning with the simple gratitude as the source cognition of his life gets all his thousand petal leaf full, fully bloomed, alive, energetic like he has the energy of thousand beings within him, understand. "Delusion of debt paid," if that one delusion taken away - the kind of detoxification you go through force you in integrity with the life, with people, with situation, with everything immediately, I am telling you. I tell you, with gratitude you will never become naive, understand. One of the biggest fear inserted into you "with gratitude you will become naive and people will exploit you. You will become vulnerable." No! A person with gratitude will be so conscious. Conscious being cannot be cheated. Only the fellow who feel "debt paid" will be so cheap. He will fall for small greed and small fears, understand.

A well dressed sexy women sitting in the negotiation opposite you can make you sign hundred million contract without thinking. Cheap greed collapsing your life. Same way, a very simple temporary mood swing can make you make that decision permanently damaging your life. Falling for silly greed and silly fears, damaging the life permanently in the large scale can happen only with the person who is low in Consciousness and the "debt paid" delusion. Understand, this is one of the very important delusion you need to get out. One of the important detoxification need to happen to you is "debt paid cognition." Look into the life. I have spoke about this in 2002. From 2002 till now I am repeating the same in maybe different different language, different different way. If you have attended my program in 2002, you would have heard this same powerful cognition me talking.

Now listen. This "debt paid delusion" which we are engaging with makes your life very dry, feeling all powerlessness of loneliness, guilt, "why me?," feeling harassed, abused, attacked, false accusations done, so many, so many things. All the powerless cognitions you will feel starts from this one cognition "debt paid delusion." Understand, the life bubbling in you cannot be equated to all the currency spent to keep you alive. No. Then if somebody or for example, okay two million dollar has been spent for you till now from your birth now. If somebody gives ten million will you die? Understand, the delusion has gone so deep in your thinking you forgot money cannot be equated to the happening of the life. Money is just a simple mathematical understanding all of us have decided to keep ourself active. But slowly slowly, that cognition takes over your life's functioning methodology, life's operation methodology. Listen. This is what I called you falling into the trap which you created. Sometimes these hunters, they forget they made the trap in that area and they walked and get caught.

This "debt paid delusion" is created by us and finally we are stuck in it. If you get out of this simple delusion, I give one example, this "debt paid delusion." Like this, the simple delusions with which you are confusing your life, if you detoxify yourself from them - you will fall into a place, space called simple integrity. Understand, with the simple integrity, you always manifest. The whole Science of Manifestation is only one line - get out of delusion. Settle down with simple integrity. Now, every struggle you go through in your life, look how delusion has taken over your reality. Actually, I am not saying you should not bargain in your business. All I am trying to tell you is your inner space should know what is business

negotiation, what should be the attitude with which you should function. Integrity is not stupidity. It is being clear about the reality. I am not saying, “Ooh, you have to be grateful to the doctors who get, deliver you, give up all your properties.” No. I am not saying that.

Same way, I am not saying feel very complete and feel that you have done the “debt paid delusion” because you paid few thousand rupee or dollars. No. Be very clear, the money is contributed for the quantity of the time they spent, not the quality of the being they carry. You also see very clearly the quality of the being you carry should not be always reduced to the quantity of the wealth you gathered or retaining or sharing. Look at the whole thing, how that delusion is replacing reality in every level. In every level, your relationship with yourself, your relationship with the life, your relationship with the human beings, your relationship with God. Listen carefully. This “debt paid delusion” is one example I want you to look into the reality more and more. Other realities, how in different different level simple straightforward things which is in front of your eyes are covered by your toxic cognitions, powerlessness.

Today, there was a big debate going on between me and one of my aadheenavasi. I made a rule that all our rituals in the temple should be done only by the balasanths whose Third Eye is awakened, who are power manifestor. She comes with the contention, “No. The way they perform, they are not able to impress the people who are attending.” We are missing the reality of the ritual. Reality of the ritual is conductor connects with the Cosmos - infuses, he acts as a medium for the Cosmos to land in that space and fill everyone and make them manifest what they want. But the regular professional paid priests, I am not blaming them or disrespecting them. But many time by conducting so many times the same thing, it becomes like a dead clerical, repetitive, monotonous job for them. They missed the context, they forget it. And, they maybe able to impress the onlookers, not the beings who needs to be participating. Understand.

A power manifestor even if he misses the context for a few minutes, he will get back because the Science of Power Manifestation is such, it naturally keeps you in high frequency. The way you connect with the Cosmos itself is different scale, different level all together. If a power manifestor has thousand petal lotus in their head, a non power manifestor may have only two petal. The two petal guy may act and enact and react and do one extraordinary pompous show. But, it may satisfy only the onlookers, not the people who need to participate. When a power manifestor does, in the initial level he may not have a training, he may not be able to impress onlooker but he will connect with the beings only to participate. Multiple levels we go on missing the reality and fall into delusion, understand. Science of Manifesting is nothing but simple straightforward getting out of delusion. Simple integrity.

Get out of delusion in every level. Move out of delusion. Before you want to manifest anything, just sit and look what all the delusions and blind spot in that, that which you want to manifest and why it is not manifesting or whether you have not even tried or really what you want to do to manifest and just see simple stock taking. Simple stock taking is what I called getting out of delusion, detoxification of your system. Completion - completing all the incompleteness, detoxification of your thought current. I tell you, listen. Some of the greatest lessons I learned in my life from my Gurus and these lessons are still alive in a primitive societies where currency is not the language of conversation, please understand. Currency being the component of system of transaction is not wrong. I am not against it. But currency becoming the language of conversation is wrong. Means whether, means even you start believing inside you the currency equates everything and unfortunately sometime even in your own life you start believing that if you had a fall and fracture, if you just sue the other person and get the money, you don't have a pain. This a extreme of delusion!

Listen carefully. Even the most intimate experiences like a pain, pleasure, gets corrupted by the language of currency even within your internal cognitions and internal conversations. There was a well known leader. I will not tell the name. Who did not pay the prostitute because she was not cooperating. I could, I could understand the whole mental setup. Even the pleasure is equivalent to currency within himself! Oh God! What has happened to this mind? Listen carefully. Currency can be system of exchange, not conversation language especially within you. Then the corruption has gone too deep. When the corruption has gone too deep...My whole effort running in this sangha is making people get out of this delusion, constantly detoxifying and bringing them to simple integrity. Yes! People asked me, "Ooh, what is there Swamiji? Even if the paid priest do the rituals, if you say Gods are going to come and see how they are giving the blessing and going to go over this." If I allow this once, I have allowed this in the initial level till people are raising. Because I allowed that once, that is becoming thought current, deep delusion which will be difficult later on to remove.

There is no time when the stopping or compromising and getting back to the integrity happens. Because, all delusion gives a kind of a comfort. No need to think. No need to get involve. I can see very clearly, the most destroying negative elements I have seen in my life is these people who get into that delusion and marry the delusion. Not just accept the delusion, they marry the delusion. After that, they forget delusion is something separate from them. They become and they start enjoying Oneness with the delusion instead of Oneness with Paramashiva, Oneness with delusion. And whenever the delusion is questioned, they feel hurt they are questioned. Listen carefully. Look in your life, how many times you are deluded so much the simple integrity is lost, forgotten.

And tell you, in the law of the land, ignorance cannot be the reason not to get punished. But, listen carefully, I am revealing a very important truth. In the Cosmic Constitution, ignorance is a reason to be forgiven. If you are ignorant of certain principle, you cannot be prosecuted, keeping that principle as a foundation. It's a law of the Cosmos. But, even after being introduced to that principle, if you consciously decide to be deluded, the punishment will be doubled. If you are not given the jnana, knowledge, vidya and you don't follow the principle, cosmically it is not crime. That please understand, this is a very important revelation you need to know. See in the law of the land, ignorance cannot be the reason for not getting punished, not getting prosecuted. The law of the land makes it very clear, whether you know it or not, this is the law. It's your responsibility to know it. Whether you know it or not, if you break this law, you will be prosecuted and punished. In the Cosmos is not. It is not. It says very clearly, a person who does not have the knowledge or the introduction to the principle cannot be prosecuted for that principle in the Cosmic court, as per the Cosmic Constitution. But if the principle is introduced to you and you decide to be consciously deluded, punishment is double.

Listen. Just look around your life, how you engage with delusion almost to the level of feeling Oneness with it. Engaging with the delusion to the level of feeling Oneness with it. Again and again and again, delusion being the default way of existence is what is life negativity. Powerlessness, powerfulness means looking around the reality with the simple integrity with the no delusion. I wanted all of you to do a few minutes exercise. Now sit and pen down what do you want to manifest and see any known delusion is there in that you want to manifest. First list what do you want to manifest in your life or in health or in your wealth or Paramashivoham or your relationship, what do you want to manifest. And, the simple analysing of the blind spots and delusion which is there and you are not interested in seeing it. Pen down few minutes. Then I'll help you to go to the next level. So take a few minutes and pen down just these two - the reality you want to manifest and the simple delusions, blind spots which you are not seeing. Pen down.

(Time given to pen down the reality we want to manifest and delusions, blinds spots which we do not want to see)

Yes, now I'll lead you all into the process to clear this blind spot and delusion to make you understand the reality and start manifesting real, please understand. Now all you need to do is every blind spot, every pattern, delusion which you are not looking in - decide to complete them, drop them and complete and create new reality of thinking and working from powerful cognition. I can give you some practical life example, like a if you are constantly conversing only in the language of money inside you, move to the language of gratitude. Like this consciously deciding. Then you will have so much of energy to, energy and inner space, visualisation to manifest what do you want. I'll elaborate on this science much more. But now what I have shared is the simple straight forward basic way of manifesting whatever you want.

Sit straight. Decide to complete all the blind spots and manifest what do you want with the conscious decisions sit. I'll help you to manifest. Close your eyes. Hum, do ajapa japa of Mahavakya intensely. Chant the Mahavakya intensely.

(Swamij starts the initiation process)

Chant the Mahavakya "Om Nithyananda Paramashivoham." Chant as deeply as possible and intensely as possible. Do ajapa japa.

I bless you all. Let Paramashiva manifest in all of us. Make a powerful Science of Manifesting, the reality we want and the of knowledge what really we want be manifested in all of us.

I bless you all. Let's all radiate with Integrity, Authenticity, Responsibility, Enriching, Causing, Living Shuddhadvaita Saivam, Paramashivoham, The Eternal Bliss, Nithyananda. Thank you. Be blissful.

Session 2

Question and Answer

Swamiji:

Yes!

Question 1:

The first question that we have is from Parvati Lakshmi Ramla from Trinidad and Tobago Paduka Mandir - "Nithyanandam Swamiji, thank you for finding me and allowing me into your space. I want to know is it delusional to want to manifest currency in abundance for example winning the lottery as a means of moving ahead spiritually? Also I am trying to manifest the currency to sponsor my family and I and our sangha in Trinidad to attend the Paramashivoham. Please send us your blessings. My love and respects to you."

Swamiji:

Parvati Lakshmi, first thing the question you are asking, "Is it delusional to want to manifest currency in abundance for example winning the lottery as the means of moving ahead spiritually." Be very clear, want to win the currency to spend for some spiritual program is different. To move ahead spiritually is different. Be very clear. Again do not confuse limitations of money and realisation of reality. If you have intense decision to do Paramashivoham, manifest Paramashivoham spiritually - money manifest. But if

you think by paying the money itself you will have the Paramashivoham, I don't think you are on the right track. Understand, do right thing with the right reason. I'll repeat. If you decide to manifest Paramashivoham, you will manifest money - lottery or suddenly you will discover from somewhere money will happen, just like that it'll happen. But if you think by paying some money, you are going to get Paramashivoham, then I don't think it's the right track. So decide to manifest Paramashivoham, for that what you need will automatically manifest for you. My blessings. You will manifest wealth. You will manifest Paramashivoham. What else you want? Tell me. Next.

Question 2:

The next question we have is from Radhakrishnan from India, "Beloved Swamiji, humanity is facing >>>lost of transmission<<< religious conflict. Can we request all religious persecution especially to Hinduism, we see you as a great hope. What can we do as your followers for the change?"

Swamiji:

Radhakrishnan, understand fundamentally Hinduism is Cosmic Constitution. Because it is Cosmic Constitution, we did not spend too much attention in possessing the land. We trusted the goodness of the people. That has become too costly. We don't have any land where the Cosmic Constitution can even be spoken with freedom. That has cost us too much. I tell you, I don't know what you can do but I know the solution, the only solution is, if we want Hinduism, Sanatana Hindu Dharma, Cosmic Constitution, all these power manifestations science alive for next generation, next twenty five years after that if you want all these things to be available to the world, to the planet earth. And I tell you, only by keeping all these alive for the planet earth, planet earth is going to be alive. If you want that planet to be alive and this science to be kept alive for the sake of keeping planet earth alive - the only way is let's create Hindu Nation.

Let us create Hindu Nation. We cannot wait till some politicians agree. When it will happen? Nobody knows. But the speed with which the spiritual truths are getting destroyed, the spiritual legitimacy is being destroyed for Hinduism, understand. The speed with which Hinduism is losing its spiritual legitimacy, religious legitimacy, social legitimacy, cultural legitimacy, economical legitimacy, political legitimacy. If we don't do something now, we may...no, I don't even want to describe it with my Vak. No. We just cannot think otherwise. We just have to think wisely! And understand, we need to bring legitimacy, spiritual legitimacy, social legitimacy, religious legitimacy, economical legitimacy, cultural legitimacy and political legitimacy to Sanatana Hindu Dharma. We need to create Hindu Nation.

Anybody who is interested in keeping the planet earth alive, be very clear, only if this spiritual science of Sanatana Hindu Dharma is alive, planet earth will alive. Because this nullifies the collective negativity. Spiritual legitimacy, religious legitimacy, social legitimacy, cultural legitimacy, economical legitimacy and political legitimacy of the Hinduism need to be kept alive for planet earth to be alive. The only way out is create a Hindu Nation. Understand, if you are my disciple, if you are interested in keeping the planet earth alive, Hinduism alive, reach out to your country government. Request them even if they will allot few acre land for keeping the Hinduism as a lifestyle. Request them to give religious freedom in that few acre land. Any country, approach any country. If you are able to get yes from any one country, it can be few acre or an island to keep Hinduism as a legitimate spiritual tradition. We are not asking anything else. We are just asking religious freedom, religious sovereignty. If you think you can approach any country, any government and get that few acres land, that is the best thing, that is the only thing we can do to keep the Hinduism alive, understand.

I am talking something completely new. You would have never heard this from me. First time I am talking. I know for sure, if we want all the scriptures of Hinduism which is almost like a twenty million source book.

I don't know how many of you know? There is not a single legitimate Hindu University other than Nithyananda Hindu University. In India, Hinduism has no legitimate university. Other religions have legitimacy. Anyhow, I am not going to discuss and compare with other religions. Understand, once upon a time Hinduism had fifty six nations, two hundred states, thousand territories like a samsthanas (संस्थान, samsthāna) practicing Sanatana Hindu Dharma as legitimate religion. Last thousand years of violent persecution and attacks, we lost all the territory. In 2007, we lost Nepal also. So there is no territory available even to keep these scriptures, just build a library and keep all these scriptures at least one copy. Have one gurukul where all these will be practiced legitimately without getting harassed. Just that one place you need to get without interference, having a complete religious freedom.

If any of you can get in any country, any island on the planet earth, just these few hundred acre. Let's build a library and gurukul. Keep this whole science alive in one place for planet earth to be alive. That is the only thing we can do to keep Hinduism alive. And I am very clearly convinced that is not going to happen in India. Whether you take this as a sad news or bad news, I don't know. But, India is not going to be the country where Hindus are going to have a legitimate way to exist and practice their religious tradition freely. So if you are my disciple, want to keep Sanatana Hindu Dharma alive, want to keep this planet earth alive, the only way - talk to any country, any one country which is ready to give religious freedom to Hindus. Have few acre land ready to allot for a library and gurukul. That's all. Nothing else. Just want to keep these twenty million books, original source books of Hinduism and thousand kids to practice this power manifestation science legitimately and build confidence on Hindu tradition and just keep it alive.

I am not asking anything else. That's all I am asking. I am the last hope available for Hinduism. Understand, it's not pride. With every Master leaving the body, one science of Hinduism left the planet earth. I am the last lamp available. Now itself if we light more lamps and keep it alive, "Oh humanity, Hinduism will be alive, planet earth will be alive. Humanity can have its only home, known home for themselves." Let us not talk about otherwise. Let's just do only this. If you guys are serious, take this up. Let's do it. That's the only way. I know with the grace of Paramashiva, we will do it. With the grace of Paramashiva, we will do it. Let's do it now. Next.

Question 3:

Going on to the next question. The next question is from Bhavya Sri from Paris. Bhavya Sri is asking, "Swamiji, how can we know the difference between my Third Eye's revelation and just perception? Thank you Swamiji, Bhagavan."

Swamiji:

Bhavya Sri understand, all Third Eye revelations will be very powerful and undeniable, unwipeable. When they get revealed, try to wipe it as much as you can, beyond your rational logical effort - it'll stand again and again bright. Undestroyable, akshara (अक्षर, akṣara) is the quality of Third Eye. Perceptions change. Revelations don't change. Understand, perceptions change. Revelations don't change.

We just need few acre land to keep all these revelations on record for future generation to do the research and expand and experiment and experience and radiate. I never thought I will speak about this in public. Today I open up my heart. If you are ready to listen to my heart, take this seriously. All of you approach your government. Ask them, can they give just few acre land, take the religious freedom to practice Hinduism. We will not do anything criminal activity. We will not do anything anti-social, anti-national. We just want to keep the Hinduism alive. A library with twenty million books and gurukul - the Hindu Heritage School for thousand kids. That's all we want to do. If you are able to convince your

government and get yes, immediately contact Ma Jnanatma, registrar@nithyananda.org. We will be happy to build the only Hindu Library and only Hindu Gurukul Heritage School.

If I keep just these two alive, see, we have thousands of temples, but, temples come and go. It is news. Our gurukul is the narrative, spine which keeps temples alive. The spine is getting destroyed. Oh Hindus, wake up! You guys are not understanding. I am the last hope. Still you have time, this body still have the capacity to radiate this power manifestation science and initiate all of you. Before this body stops functioning, let us create at least few thousand people who can carry this capacity so that this possibility and capacity doesn't die along with this body. That's all I am trying to do. That is precisely anti-Hindu elements does not want. The only reason they want to eliminate me is they know I have not done anything against them. But I am carrying something too precious, valuable. If I multiply it, Hinduism is going to be alive.

Anti-Hindu elements who don't want, they know I am the last hope. They don't want multiplication. Understand, I just want few acre land where religious freedom is given to us to have one library and one gurukul. That's it. Where these twenty million original source scriptures, I am not even bother about the recent, the modern day scriptures. When I say modern day in Hinduism, ten thousand years is modern day. When I say twenty million books, I speak only about Vedas and Agamas. Twenty million source book we have. Just want to keep them alive, thousand kids who can manifest the science I am carrying within me. If I have done this, I have, I know for sure Hinduism will not die from the planet earth. Somehow it will survive!

If you are my disciple, I am asking you only this. And, if you get in your country just few acres, that will be the embassy of Paramashiva's Kailasa. That will be the embassy of Paramashiva. Any country ready to give few acres with the religious freedom, keep our library and gurukul, we will happy with work, happy to work with that country and we will even buy the land. We will not be asking freely. We just want the religious freedom to keep the library and gurukul alive. Even if you have some contacts, want some guidance - email registrar@nithyananda.org, Ma Jnanatma immediately. This is the best and only thing can save Hinduism.

Please understand, the way Hindu Gurus are getting eliminated in India, I guarantee no authentic Guru will be able to survive in next twenty five years. We may have preachers. Preachers are different. People who have a capacity to initiate, transmit the experience - they are all being identified and eliminated systematically. The Hindu phobia is so strong even among Hindus. How Jews were convinced that something is wrong with them, that is why they are getting prosecuted. Hindus are convinced something is wrong with their system, that is why they are getting persecuted. Understand, what I am talking is a immediate emergency need.

Just few acre land where the religious freedom is given, where the library and gurukul is kept and protected, given the freedom to exist. Where I am given the basic freedom to speak, nothing else. I just want the right to speak! Just first amendment. I am not even asking anything else. First amendment. Right to speak my religion. I am still searching in this modern day, is there anyone who has been asked, ordered by the court not to speak other than me! Still I am not able to get the second reference! Nithyananda was ordered by the court, High Court of Karnataka not to speak, not to preach! It's not that he was teaching some terrorist philosophy. Still I don't know. If any of you can get a few acre land from your country government to keep Hindu Library and Hindu Heritage School, I'll be so grateful to you. I tell you, all the choicest best blessings of Paramashiva will be on you and your country. Of course, it will become Paramashiva's country. Paramashiva bless that country. Paramashiva will bless that country.

And I do not think anymore in India it is possible. I tried, eight years I struggled, from 2010 to 2018. It's only more and more and more getting vicious and more and more assassination attempts and murder attempts I am facing. Neither able to run the gurukul peacefully. If constantly riots are running, your campus is getting burnt, destroyed, stoned, poisoned, bombed - how will the parents allow the kids to live there? Constantly the hate speech through the systematic hate speech. The media incites mob violence and sends the terrorist elements, attacks the gurukul. How to keep the gurukul alive? How to keep the monastery alive? Assassination attempts, murder attempts, arson, rape, murders. What more will come, we don't even know! How to survive? How to keep ourself alive? We are not doing anything wrong! Just keeping Hinduism alive is the only thing we are doing! But it has become too much. It has become too much.

I am officially announcing today, decided to have some place where the full religious freedom is available and build largest library and gurukul place for Paramashiva to live and operate the Cosmic Constitution. It's going to be done. With the grace and blessings of Paramashiva, it is going to happen. It is going to happen. If you want to be part of this great blessing, send an email to registrar@nithyananda.org immediately and be part of this great effort to save Sanatana Hindu Dharma and through that save planet earth.

Anurag, my blessings. Anurag is sending the message from Switzerland - steps to contact government. My blessings. Madhu says she can get land in Badrinath. Please understand, I do not think it is possible anymore in India. Sara is saying she would like to get it done in France. My blessings for Sara. my blessings for Anurag. Madhu, I will be happy to do it in Badrinath but I don't think you are going to have the religious freedom. Anti-Hinduism has become the definition of secularism in India. Even Hindus lost confidence on the authentic Hindu tradition. It is unfortunate. So anybody outside India other than India interested in doing it, with the help of the government having the religious freedom, I welcome you. Work with your government and get yes - we will buy the land and build the library and gurukul. That's the only way Hinduism can be kept alive.

Even if I, even if the gang which is trying to assassinate me, eliminate me, knows that I have spoken this publically - I don't know what will be their reaction. But by Paramashiva's grace, I am in a safe place. That is why I am even speaking. I don't know how many of you know the Indian High Court of Karnataka, the sup, the highest judicial body of the Karnataka state has ordered I should not preach or speak. It is court order. I do not know in any other country anyone has been ordered by the court not to speak especially religious leader who is not terrorist or who has not instigated terrorist philosophy or even the government has not charge him with any terrorist activities or accusations.

So, a person Jhuma from India is saying she will, she wants to write to Prime Minister and get recognition for Bengaluru Aadheenam. Jhuma I want to tell you, twenty five thousand of us wrote in blood, not just in ink, in blood we wrote to Prime Minister and President of India - both, and all the Chief Ministers of India. We did not write just in ink. Twenty five thousand of us wrote and put our thumb impression in blood to express our sentiments! We did not get a response, other than media made more fun of us. Media harassed us more. More hate speech, more mob violence and mob hatred instigated against us. More mob attack, mob lynching was done on us. Even day before yesterday, one of our devotee, close devotee, her name is Varnaja - she died just by depression. Because people are harassing, abusing Swamiji and he is not able to have peaceful existence and teach Hinduism. With that, just that pain she died in depression. How many people, how many lives we have sacrificed, how many lives we lost in this religious freedom struggle.

>>>?<<< is offering to use his land. Please approach the government, the French Guiana government and get the government's permission to give us religious freedom, to practice Hinduism in that land. Then I'll accept gratefully and installed this world's largest spiritual library and world's largest Hindu Library with two crore books which I have already collected. And, at least few thousand kids who can practice this science. Lloomis is writing from Hawaii, she really want to do it in Hawaii. I have a hope on America. If you can reach out to American government and make them understand and get it in Hawaii, I am very happy we can do it. The great land of freedom. I have hope on America. Anna is saying she want to contact Canada government, I am happy. Please do it. As many countries as possible, do it.

Any government gives this religious freedom, we are not asking any other freedom. We just want the religious freedom. We are not going to do drugs. We are not going to do any terrorism. We are not going any anti-social or illegal activities. No immoral, illegal, anti-social, anti-national activities. Just we want a religious freedom to practice Hinduism, where we are left with ourselves to read the scriptures and do this power manifestation science and pray to Paramashiva, meditate on Paramashiva and to practice this Oneness science. Understand, if constantly you are, your place is attack and you are under war and threat, you cannot do any research and development. If constantly your house is burning, how will you cook and eat and do meditation and study scriptures, do any research and development?

One thing I understood, only because Buddhism has gone outside India, it has survived. I know now the same situation has come. Only if the Hinduism goes outside India, it is going to survive. Buddhism is alive because it went outside India. In outside India, they took the roots and they kept it alive. That is why they are even able to come back to India now. I think now that's the same thing has to happen for Hinduism now. It has to go outside India and take roots. Maybe sometime if it's possible, can come back to India.

>>>?<<< is asking would it be possible to build it in Gold Coast, Australia? Please understand, if you can get it from the government permission, Australian government permission - we have, surely the whole support of our devotees and disciples to do it, we can do it. Please work with the your country government and get the approval, we will do it. Tony New Zealand is saying, he wants to do something. Tony, please contact Jnanatma and work with the your government and if your government is ready to give us religious freedom, we will be happy to do that.

I tell you, I have never express this side of me. First time I open and spoken. What Hinduism is going through you don't know. How much one Christian father in Bangalore, Father Edward Thomas tried to shut down our gurukul. The amount of money, time, energy, government influence he has used to shut down our gurukul. I can't tell. We have all the evidence but still we are not able to flourish because we are not allowed to live in peace. We are not allowed to operate in peace. In Karnataka, Hindu Gurukuls do not have a legitimacy to function, religious syllabus has no legitimacy. Muslim Madrasahs can function with the Muslim's religious syllabus without having any secular education. But Hindu Gurukuls are compulsorily has to have the so-called secular education. There is Hindu education system is not accepted as legitimate education system.

I never want to talk about this because indirectly I did not want to disrespect India. But now, my integrity to Hinduism is first priority because my integrity to Hinduism is my integrity to humanity. My integrity to planet earth. That takes first priority. That is why I have decided to open up and tell about everything to all of you. Come what may, I have to protect Hinduism. Whether somebody understands or not, I know I am the last hope. I need to multiply and keep it alive before I leave the planet earth, before this body stops operating - this science need to be protected and multiplied to many bodies. I can't afford, I can't afford not to protect Hinduism. So I request all of you, please do something, keep these two million Hindu

scriptures and few thousand Hindu kids alive and allow us to practice Hinduism. That's all I have to say. I'll come back to next session to conduct the process and initiation.

With this I bless you all. Let's all radiate with Integrity, Authenticity, Responsibility, Enriching, Causing, Living Shuddhadvaita Saivam, Paramashivoham, The Eternal Bliss, Nithyananda. Thank you. Be blissful.
